

PLJW13 Travelling Irrigator - Polyurethane

Specifically designed to use with Travelling Irrigators for the watering of food crops and turf farms. Can also be used for water transfer and dewatering in mines, rural, and industrial areas etc.

Polyurethane material has better wear characteristics than rubber or thermoplastic blended materials.

- Tube:** Blue, smooth polyurethane
- Cover:** Blue, smooth polyurethane
- Reinforcement:** Circular woven polyester
- Temperature:** -40°C to +80°C

Size	ID mm	Wall mm	WP psi	BP psi	Tensile Kg	Weight Kg/m
